

## CfP Papers for Panels on Trade Policy at UACES 2019 Lisbon Conference

EU Trade Policy has experienced important shifts in the last ten years since the Treaty of Lisbon. The empowerment of the EU level in Lisbon, rather than simplifying trade policy, has instead led to greater politicisation, contestation, and complexity. The current international scenario, and the UK's withdrawal from the EU have only served to further exacerbate the challenges facing the EU's key external policy.

We welcome papers from various disciplines and methodological approaches dealing with any internal or external aspect of the EU's trade policy.

Please email your 250 word abstract- including your contact details to [m.garcia@bath.ac.uk](mailto:m.garcia@bath.ac.uk) by 17 January.

Looking forward to some great papers in Lisbon!

Dr Maria Garcia

Senior Lecturer in International Political Economy

Politics, Languages and International Studies

University of Bath
